

When the Old Wagon Breaks

Come in and get one of our line of Studebaker—the kind that stands up. If you have much hauling to do a Studebaker will pay for itself in a few months by saving you time and trouble and the expense of constant repairs.

You Know the Studebaker Wagon

For more than fifty years its reputation has grown better every year. This reputation is due to the good quality that has always been a part of the Studebaker Wagon. Each part is made from the finest material in the best fitted for that part. New England black birch makes the best hubs—the Studebaker hubs are made of it. But cut, second growth black locust—Studebaker hubs are made of it. Selected white oak is best for spokes and running gears—that is what is used in the Studebaker Wagon.

Is Perfect in Every Detail

That is why we sell it. Come in and let us talk it over. We have some interesting wagon books for every one.

I at once got up and went out, found her very ill with cramp colic, her hands and arms were drawn up so you could not straighten them, and with a death like look on her face. Two or three ladies were working with her and giving her whiskey. I went to my suit case and got my bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy (I never travel without it) ran to the water tank, put a double dose of the medicine in the glass, poured some water into it and stirred it with a pencil; then I had quite a time to get the ladies to let me give it to her, but I succeeded, I could at once see the effect and I worked with her, rubbing her hands, and in twenty minutes I gave her another dose. By this time we were almost into Le Grande, where I was to leave the train. I gave the bottle to the husband in case another dose should be needed, but by the time the train ran into Le Grande she was all right, and I received the thanks of every passenger in the car."
